

Spider 43T Tracked Access Platform

The Spider 43 T is a self propelled tracked lift with extendible tracks and simple and intuitive controls. This tracked platform is incredibly stable and, at the same time, easily transportable. These characteristics plus a compact size that allows its use in narrow spaces, make it a good choice for those involved in jobs like tree trimming and pruning, maintenance work, painting and/or any other work at a height that is hard to reach with a normal platform.

Key Features

- ✓ Automatic stabilisation and automatic storage device
- ✓ Bi energy Diesel + Lithium Ion batteries available on demand
- ✓ Radio remote control, with a selector fast/slow for the drive
- ✓ Easy maintenance
- ✓ Simple and intuitive on-board equipment
- ✓ Diagnostics with display installed on board
